

Total Marks of Students ▾

(39), Sharmila (79)

- Sum of new scores:

$$44 + 51 + 17 + 21 + 42 + 39 + 79 = 293$$

- **Grand total (30 students):**

$$1392 + 293 = 1685$$

Updated Insights

- **Grand total: 1,685 marks**
- **Average score:** $\frac{1685}{30} \approx 56.2$
- **Top performer:** John with **99/100**
- **Lowest performer:** Bharathi with **19/100**

Would you like me to also show the **pass percentage** (students scoring above 40) for all 30? That way you'll know how many cleared the ↓ hold.

- Sharmila: 79
- Page 2 Subtotal = 293

Grand Total

Combining the visible totals from both pages:

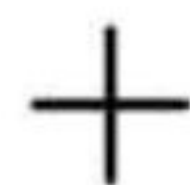

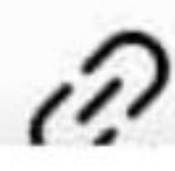

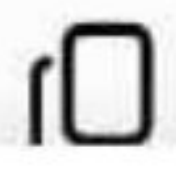

$$\text{Total} = 1305 + 293 = 1598$$

The total of all visible marks is **1,598**.

Ask Gemini

=

$$44 + 51 + 17 + 21 + 42 + 39 + 79 = 293 \checkmark$$

Total = 293.

How much in total

If you mean the **combined total of both images**:

- First image total = **1450**
- Second image total = **293**

Grand Total = 1450 + 293 = 1743 ✓

Answer: 1743.
